## EXAGGERATED REPORTS ARE UNFOUNDED

DENIED BY CARRANZA WHO DE-  
CLARES PEACE AND HARMONY  
PREVAIL IN ZONE CONTROLLED  
BY CONSTITUTIONALISTS.

Washington, Sept. 13.—Rafael Zubarán of the Mexican Constitutional agency here announced tonight the receipt of the following message from Venustiano Carranza, first chief of the Constitutional forces, on conditions in Mexico:

"The alarming reports that you have brought to my attention as circulating in the United States as Mexican news have no foundation. For instance the report that a number of policemen were shot in the City of Mexico, is untrue. What actually occurred was a street brawl between police and carousing constitutionalist troops. The affair was handled with no difficulty. Not a single federal officer has been shot. The greater majority of them are enjoying the fullest liberty consonant with existing conditions.

The decree revoking the order promulgated by the governor of the federal district and its military commandant, in regard to the occupation of private property and the formalities requisite for arrest does not mean that we intend to wrest from the people their personal and property rights. The action was taken as a temporary measure.

"It is not true that the port of Vera Cruz has been closed.

"Peace and harmony now prevail throughout the zone controlled by the constitutionalists, which covers virtually the entire republic. Little friction has attended the mustering out of the federal army.

"Exaggerated reports relative to Zapatista activities are unfounded. Small marauding bands have been routed and all but exterminated.

### Work Together for Peace.

"The constitutionalists are working amicably together and with the single purpose of establishing permanent peace and a stable government. All reports as to divisions in our ranks are false.

"General Villa is working in perfect harmony and genuine subordination. By reason of his laudable and patriotic attitude, and in view of his high

**THE NEWSPAPER PUBLICITY LAW.**  
Its Application to Other Organizations Needed.

The Newspaper Publicity Law, enacted by Congress some time ago, ought to be applied to many other business organizations. This law provides that all publications must file an affidavit with the Postmaster General setting forth full information concerning their ownership, management, circulation, etc. A copy of this affidavit must be printed in certain designated issues of the paper, and a marked copy thereof filed with the Postmaster General. Failure to do this will authorize the Postmaster General to deny the use of the mails to the offending publication.

This law has eliminated many newspaper evils, such as the paid editorial, the overstatement of circulation, and hidden ownership. All this has been attained by the simple remedy of publicity.

A similar law applied to other organizations would work equally well, and would eradicate many evils, much corruption and mismanagement. For instance, if labor organizations were required to publish full information as to their objects and their transactions, and to make public an account of their moneys, dues, etc., many abuses that now exist would be removed. Labor organizations should not carry favor from legislatures and Congress any more than business organizations, and they have no right to special exemption from anti-trust legislation. A labor union is a form of labor trust.

Business should be required to give full publicity as to prices, volume of business, methods of operation, etc., so as to give each competitor the right conclusions concerning their particular field of industry.

We need publicity of all business organizations to cure the evils of mismanagement, and to bring a stop to their frequent abuse and their underhand methods of attaining unlawful objects. A law which could produce such results would bring capital and labor into the open field and their differences would be less and they could be settled more amicably than they are now.

There is a dealer in your locality who handles Certain-teed Products. If you consult him he will be glad to give you full information about our goods and will quote you reasonable prices on all of the sure the goods are made by us. We stand behind them.

### INDICTED FOR MURDER.

#### Mrs. Carman Again Indicted Under New Evidence.

Mineola, N. Y., Sept. 13.—A superseding indictment, charging murder in the first degree, was found this afternoon against Mrs. Florence Carman by the grand jury investigating the murder of Mrs. Louise Bailey, shot down by an unseen assailant in the office of Dr. Edward Carman at Freeport on June 30, last. Mrs. Carman previously had been indicted on a charge of manslaughter.

Mrs. Carman, who had been at liberty under \$15,000 bail, was brought to Mineola from Freeport by her counsel in anticipation that such an indictment would be returned. She was arraigned immediately and committed to the Nassau county jail without bail for trial which probably will be in December.

The grand jury which indicted Mrs. Carman was the same that considered the case in July and returned the indictment charging her with manslaughter. Since then, however, new witnesses have been found, corroborating the stories told by Celia Coleman, maid in the Carman household, and Frank Farrell, a tramp, star witness for the state.

Mrs. Carman's trial may be hastened if District Attorney Smith requests that the supreme court hold a special session to hear the case. Otherwise, it is hardly likely that it will be reached before December.

### OSTEOPATHY

The biggest convention of osteopathic physicians and surgeons ever held in this part of the country, will convene in Enid, Okla., Nov. 13 and 14. The program has just been completed. Several hundred delegates will be present. It will be the third annual session of the Southwestern Osteopathic Association in conjunction with the Oklahoma society. Dr. H. C. Wallace, of Blackwell, Okla., is the president. Dr. Eugene F. Pellette of Liberal, Kan., vice-president; Dr. E. B. Waters of Wichita, Kan., Secretary-Treasurer; Dr. C. E. Willis of Wichita, convention secretary, and Dr. M. A. Mitchell of Enid, assistant secretary.

Some of the most distinguished osteopaths in the country are listed on the program. One of the most spectacular features will be an operation by Dr. Geo. E. Conley of Kansas City, who will demonstrate the wonderful new method of rapid straightening of spinal curvature, accomplishing in a few minutes what it used to take years of plaster casts to secure. Dr. Conley is consulting surgeon of the Southwestern Osteopathic Sanitarium and former surgeon at the Central College of Osteopathy. He will be assisted by Dr. L. R. Livingston of Kansas City, Mo., Dr. H. C. Wallace of Blackwell, Okla., and Dr. Ernest Erving of El Reno, Okla.

One of the most interesting events will be the appearance of the director of the A. T. Still Research Institute, Dr. John Deason of Chicago, who will report upon the latest discoveries in this institution and demonstrate osteopathic technique. This institution is the only one in the world founded and supported exclusively by physicians. Other research institutes are paid for by philanthropists, but the osteopaths have done this from their

### Get It Done Right

Why? Simply because it pays. Every auto man knows that cheap repairing is the most expensive in the end. Get It Done Right.

own pockets alone before they appeal to the public for donations.

A still newer institution to be represented will be the Still-Hildreth sanitarium at Macon, Mo., one of the largest institutions in the country, which is devoted exclusively to the osteopathic care of mental and nervous diseases. Its president and chief physician, Dr. A. G. Hildreth, will speak at the convention.

Dr. Jenette H. Booles of Denver, one of the most famous women osteopaths in America, will speak upon "Diseases of Children." Dr. G. E. Owens of Topeka, Kan., will demonstrate the technique of urinalysis and Dr. L. R. Livingston of Kansas City, Mo., will hold a blood pressure clinic. Dr. Blanche M. Elfrink, obstetrician to the Chicago College of Osteopathy, will read a paper upon operative technique.

Dr. W. S. Carbin of Chickasha, Oklahoma, will speak upon "Acute Practice."

The new osteopathic cure for ear-trial deafness which has attracted international attention because it is accomplished by "finger surgery" in the throat without medicine or instruments, will be demonstrated by Dr. L. S. Larimore of Caldwell, Kan. This method was discovered recently by Dr. James E. Edwards of St. Louis. Dr. Larimore will operate upon a number of cases.

### The War and the Panama Exposition

"The European war is to cause no postponement or contraction in the great Panama exposition at San Francisco next year.

Managers of the great fair report that far from being detrimental to the fortunes of the fair, one effect of the titanic struggle will be to increase the attendance and enhance the attractions.

Not one of the nations engaged in war has withdrawn and it will be a matter of pride to them to show that, despite their struggles at home they can still make a creditable showing at the World's Fair.

France has sent word that her participation be continued. Holland has ordered the construction of her building expedited and the manufacturers of Austria are prepared to resume their collective exhibit as rapidly as they can get their products through.

How the world at peace regards it is indicated by the course of Argen-

## Why Should I Smoke TUXEDO?

TUXEDO is the logical smoke for millionaires because it is impossible to buy a better tobacco.

Tuxedo is the logical smoke for the economical man because there are 40 pipefuls in a ten-cent tin—making the average cost per pipeful only one-fourth of a cent!

To buy cheaper tobacco means to get less pleasure out of smoking, because it is impossible to make a tobacco as good as Tuxedo at less than the Tuxedo price!

## Tuxedo

The Perfect Pipe Tobacco

Tuxedo is made of only the finest, choicest selected leaves of perfectly aged Burley tobacco. It is made by the original Tuxedo process which takes all the unpleasantness out of tobacco and leaves all the pleasantness in!

Tuxedo has a deliciously mild, fragrant aroma that is pleasant to all. It is the only tobacco you can smoke in a room full of lace curtains without leaving even a trace of an odor.

A trial will convince you that Tuxedo is superior to every other tobacco you have ever smoked. Buy a tin—today.

YOU CAN BUY TUXEDO EVERYWHERE

Famous green tin with gold lettering, curved to fit the pocket 10c

THE AMERICAN TOBACCO COMPANY

tina, which, recognizing the increased importance of the United States as a market, has raised its appropriation from \$1,300,000 to \$1,700,000.

Moreover, the exposition will be opened on time, February 20, and will probably be unique as being the first world's fair that was ready on its opening date.

The war has closed Europe as a place for summer tourists. The \$100,000 that is annually spent by Americans abroad will next year be spent at home, and the California fair will get a majority of the people who, in peace times, would be scattered from the north cape to Naples and from St. Petersburg to Scotland.

Another feature in the prosperity of the great San Francisco exposition will be the desire of the well-to-do in Europe to find a place where their families will be safe from the perils and turmoils of war.

In fact, the usual tourist trade will be reversed for a time. Instead of the tide of Yankee dollars, there will be, for a time at least, a counter-flow of pounds, marks and francs and the balance will be in favor of the westward tide because, whereas the average American takes his \$1,000 to \$10,000 to Europe to be spent

in a month or two, the stay of the European in search of relaxation is likely to be as indefinite as the period of war."
